

WHAT IS VIRCAN?

VIRCAN is a structured academic-community partnership that will address issues throughout the care of viral hepatitis, *from diagnosis to treatment to cure.*

Based out of the Toronto Centre for Liver Disease (TCLD), one of the largest liver units in North America, the VIRCAN team looks forward to demonstrating how viral hepatitis screening and treatment should be optimized in other urban settings across Canada, and around the world.

VIRCAN CLINICS ARE:

COMPREHENSIVE IN CARE

1 to 1 service, health education and promotion in communities across the GTA

ACCESSIBLE

Eliminates systemic barriers to full participation

CLIENT AND COMMUNITY FOCUSED

The needs of those groups and individuals are of primary importance

INTEGRATING SERVICES

VIRCAN Clinics will have strong connections with health system and community partners

MULTIDISCIPLINARY APPROACH

VIRCAN team will work in collaborative practice to address the health needs of their clients

HOW TO GET SCREENED?

1
 VISIT A VIRCAN CLINIC

2
 COMPLETE CONSENT AND QUESTIONNAIRE

3
 HEPATITIS B SCREENING BLOOD WORK FINGER PRICK

– OR –

4
 RESULT AND CONSULTATION

WHY IS IT IMPORTANT FOR ME TO KNOW?

- Hepatitis B may show no symptoms, yet cause serious health consequences
- You could be a carrier
- Up to 70% of chronically infected Canadians are Chinese immigrants⁴
- Untreated may lead to: severe scarring of the liver (cirrhosis), liver failure and liver cancer
- Prevent transmission to other people

HOW TO PREVENT HEPATITIS B?

GET YOUR BLOOD TESTED

GET THE HEPATITIS B VACCINATION

USE CONDOMS

DO NOT SHARE RAZORS, TOOTHBRUSHES, NEEDLES OR SYRINGES
